USING WITH SIEMENS SX1

a. ACTIVATING THE BLUETOOTH

You must activate the Bluetooth feature of your mobile phone to establish Bluetooth connection between it and other Bluetooth devices.

1. Press Menu key ➤ ***Setup*** ➤ ***Bluetooth***.
2.

is highlighted. Press ***Options*** ➤***Change***.
3. Choose ***On*** and press ***Ok***.
4. Continue pressing until you finally Exit.

b. PAIRING TO THE CELLULAR PHONE (not possible charging the Handsfree Kit)

1. Bring the cellular phone at about 20 cm from the Hands-free Kit.
2. Turn off the Hands-free Kit and wait for about 4 seconds.
3. While pressing the *Answer Button*, turn ON the Hands-free Kit by sliding the *Power Switch* to the right. Keep the Answer Button pressed for approximately 10 seconds until you hear a distinctive tone and the Bluetooth indicator LED changes from blinking blue to alternate blinking red and blue. The Hands-free Kit is now in pairing mode.
4. Press Menu key ***Setup*** ➤ ***Bluetooth***.
5. 
will be displayed.
6. Sway the joystick to the left to open ***Paired devices*** window.
7. Press succeedingly button for ***Options*** ➤ ***New paired device***.
   The phone will then start to search for other Bluetooth devices until it displays them in the list.
8. Select the device you want to connect with your phone.
9. Enter “0000” as the passcode and press ***OK***.
10. Highlight the paired device, press ***Options*** and choose ***Connect***.
    The statement ***“Connected to… “*** appears.
11. Continue pressing until you finally Exit.

The Hands-free Kit is paired and ready to use.

Notes:

- You only have to do the pairing process once for a particular phone. You will only redo the process if you want to pair it with another mobile phone.
- If you turn-off your Hands-free kit, it will disconnect with your phone. If you turn it back on, just shortly press the Answer Button. A question, ***“Accept connection request from….? “*** will be displayed. Press ***Yes*** to reconnect.

c. AUTO ACCEPT MODE

1. Press Menu key ➤ ***Setup*** ➤ ***Bluetooth***.
2.

is highlighted.
3. Sway the joystick to the right to view *Paired devices* window.
4. Choose the name of this hands-free kit and press ***Options*** ➤***Set as authorised***.
5. A statement ***“Connections will take place without confirmation. Continue?”*** appears. Press ***Yes***.
6. Continue pressing until you finally Exit.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, ring tone will be heard on the phone and on the Hands-free Kit.

1. Shortly press the Answer Button to answer the call.
2. Shortly press the Hang-Up Button to end the call.

Note: Cell phone buttons can also be used to answer a call but audio will still be heard on the Hands-free Kit.

e. MAKING A CALL with the Hands-free Kit on

Normal dialing

1. Enter the contact number and shortly press ***Call*** key (Audio will be on the Handsfree Kit).
2. Shortly press the Hang-Up Button to terminate a call.

Voice Dialing

You can dial a phone number by simply saying a word. First, you have to refer to section i for procedure in recording for voice dialing.

1. Shortly press the Answer Button to activate voice dialing.
2. A beep will then be heard on the Handsfree kit prompting the user to say a voice name/ voice tag of the person to call.
3. Say a voice name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above maybe repeated.
4. Press the Hang-Up Button to terminate the call.

Redialing

Make a long press on the Answer Button to redial the last number.

f. AUDIO TRANSFER

Audio Transfer can be done during an ongoing call.

1. Just shortly press the Answer Button to transfer audio from Handsfree kit to mobile phone or vice-versa.
2. It can also be done using your phone. Press ***Options*** ➤ *Activate Handset or BT Handsfree on*.

g. REJECTING A CALL

Shortly press the Hang-Up Button to reject an incoming call.

h. SETTING THE VOLUME

Adjust the Volume Control of the Handsfree kit during an ongoing call.

1. Turn it clockwise to increase the volume.
2. Decrease the volume by turning it counter-clockwise.

Note: If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls.

i. RECORDING FOR VOICE DIALING

Note:Voice dialing entries must be stored in the phone's memory (not on the SIM card!).

1. Press Menu Key ➤ ***Contacts***.
2. Choose and Open an entry you want to make a voice dial.
3. Under the selected entry, highlight the phone number and press ***Options*** ➤ ***Add voice tag.***

4. Follow the instructions displayed on screen. *Note: You may use any word(s) or just use the person's name for a voice tag.*

5. Wait until the word(s) is repeated and automatically saved by the phone.
6. Continue pressing until you finally Exit.

Note: Record a voice in quiet environment. Voice tags are sensitive to loud background noise.
